

## Smart Energy LAB

### Communication Designer Junior

If you want to be part of the new decade on energy revolution, at Smart Energy LAB you will have the opportunity to have a real impact by creating new products and services that will contribute to energy transition, focusing on Decarbonization, Decentralization and Digitalization.

Smart Energy Lab has a unique combination of science, technology and industry in the energy sector, focused on creating new products and services for the downstream of the energy value chain.

*“We are a green dream factory that will make tomorrow possible, improving life for everyone with new energy solutions through smart collaboration.”*

In order to create the future, we are looking for a **Communication Designer Junior**.

As a **Communication Designer Junior** you will perform tasks such as:

- **Create and design engaging contents, including writing copy, to develop Smart Energy LAB and Living Energy online and offline campaigns**
- **Optimize and update website content**
- **Plan out the content in such a way that it helps in creating leads for our business and grow our Living Energy community**
- **Design presentations and sales materials for various products and services, white papers, case studies and infographics**
- **Experience with publishing content for different social media channels**
- **Help evolve our brand guidelines as we continue to grow**

#### Requirements for this position:

- Innovation mindset
- Strong alignment with our mission
- Focus on measuring and achieving positive impact on end-users, customers and the planet
- Stays on top of latest developments in the Branding, Graphic Design and Online Marketing fields
- Desire to work in a respectful, transparent, and collaborative work environment
- Higher Education in Graphic Design or other relevant degree for the function
- At least 2 years of experience as a Graphic Designer
- Fluent written and spoken Portuguese and English
- Strong copywriting and designing skills
- Great communication and presentation skills (PowerPoint)
- Experience in working with Adobe Suite (Photoshop, Illustrator, InDesign, Premiere)
- Compensation requirements within our budgeted monthly range from €1400 to €2000 gross, according to the experience

Employees need to have Portuguese tax residency, be in mainland Portugal and availability to have physical meetings in Lisbon once a week.

As this is a government sponsored position, your degree needs to be recognized by the Portuguese government via DGES (<https://www.dges.gov.pt/en/pagina/degree-and-diploma-recognition>).

**Location:** Lisbon, Portugal
